

Delivering a safe and
Skilled workforce

Modern Slavery

CRC (UK) Ltd are consistently updating our strategies when it comes to ensuring Human Rights Due Diligence. We use intelligent software to monitor the legitimacy of documents and identification, as well as a clever alert system which notifies our teams of suspicious activity such as multiple employees living in the same residence or receiving funds into the same bank account. We offer a service to overview and give recommendation in regard to ensuring a robust supply chain.
